Contents Volume 64

Contents

Editor's Corner 1

Diagnosis of the significance of inconsistencies in object-oriented designs: a framework and its experimental evaluation
G. Spanoudakis and H. Kim 3

Identifying the difficulties of object-oriented development
S.D. Sheetz 23

Reengineering legacy systems for distributed environments
M.A. Serrano, D.L. Carver and C. Montes de Oca 37

An empirical study of maintenance and development estimation accuracy
B. Kitchenham, S.L. Pfleeger, B. McColl and S. Eagan 57

An assessment of systems and software engineering scholars and institutions (1997–2001)
R.L. Glass and T.Y. Chen 79

An ERP-client benefit-oriented maintenance taxonomy
C.S.P. Ng, G.G. Gable and T. Chan 87

EIS data: findings from an evolutionary study
J.L. Salmeron 111

Introduction of accounting capabilities in future service architectures
E.C. Tzifa, P.P. Demestichas, N.I. Liossis, N.D. Polydorou and M.E. Anagnostou 115

Heterogeneous image database selection on the Web
D.-H. Kim, S.-L. Lee and C.-W. Chung 131

Detection and restoration of tampered JPEG compressed images
H.-C. Wu and C.-C. Chang 151

Sharing multiple secrets in digital images
C.-S. Tsai, C.-C. Chang and T.-S. Chen 163

Controversy Corner: Linguistic kleptomania in computer science
I. Stamelos 171

An efficient broadcast data clustering method for multipoint queries in wireless information systems
Y.D. Chung, S.H. Bang and M.H. Kim 173

A two phase optimization technique for XML queries with multiple regular path expressions
T.-S. Chung and H.-J. Kim 183

XML query processing using document type definitions
T.-S. Chung and H.-J. Kim 195

An automatic load/extract scheme for XML documents through object-relational repositories
F.S.C. Tseng and W.-J. Hwung 207

An effective query pruning technique for multiple regular path expressions
C.-W. Park and C.-W. Chung 219

Estimating internal memory fragmentation for Java programs
T. Skotiniotis and J.M. Chang 235

Software project management audits—update and experience report
J. McDonald 247
